“Hearts of Space“

(Pete Namlook & Pascal F.E.O.S.)

This rare Techno Trance classic originally released between 1992 & 1993 began to fetch ridiculous high prices on Ebay so it has been reissued on CD to give access to milestones of Trance history like “With a Medium Into Trance”. The combination of some extraordinary Chill-Out/Ambient tracks makes this production a timeless classic for the Chill-Out and the Dance crowd.
